

# EGF2026 Sensing workshop

## April 12, 2026

### University of Evora campus, 10:30- 17:30

#### Aims

- Learn about proximal and remote sensing activities within the EGF community
- Foster networking and collaboration between individuals
- Identify the potential of sensing to improve grazing management for farmers
- Publish the notes of the workshop as a paper at the next EGF conference

#### Programm

8:30	Departure from Évora to Mitra campus
9:15	Getting to know each other and our projects
10:00	Coffee
10:30	Group discussions How can grassland <i>research</i> benefit from grassland sensing (including remote and proximal sensing as well as animal-borne sensors)? Identify knowledge gaps and technical limits.
12:00	Future activities of the EGF Sensing Working Group
12:30	Lunch
13:30	Group photo and field visit on Mitra campus with demonstration
15:00	Coffee
15:30	Joint workshop with Grazing Working Group <ul style="list-style-type: none"><li>○ How can sensing promote grazing in Europe?</li><li>○ The role of sensing in enhancing resilience in grazing systems</li></ul>
17:00	Closing and return to Évora Colégio Espírito Santo – UE for welcome drink
